

Advanced TA Skills – Orthopedic Conditions (Upper Limb and Lower Limb Fractures)

This interactive course focuses on upper and lower limb fracture rehabilitation, with emphasis on commonly seen fractures in the community. Through a combination of hands on practice, case-based discussions and guided learning, participants will gain the confidence to manage fracture rehabilitation effectively as a therapy assistant in the community. Participants would learn the healing stages and implications for rehabilitation. They would also learn the different intervention strategies for different fractures.

COURSE DETAILS

12 and 13 Nov 2026
9 am to 5 pm

Learning Objectives

- Understand healing stages and their implications for rehabilitation
- Understand precautions to note for different fractures
