

Advanced TA Skills – Orthopedic Conditions (Upper Limb and Lower Limb Fractures)

This interactive course focuses on upper and lower limb fracture rehabilitation, with emphasis on commonly seen fractures in the community. Through a combination of hands on practice, case-based discussions and guided learning, participants will gain the confidence to manage fracture rehabilitation effectively as a therapy assistant in the community. Participants would learn the healing stages and implications for rehabilitation. They would also learn the different intervention strategies for different fractures.

COURSE DETAILS

Dates: 12 and 13 Nov 2026

Time: 9 am to 5 pm

Method

Face to Face

Learning Objectives

- Understand healing stages and their implications for rehabilitation
